

ST. FRANCIS SCHOOL

REACHING OUT TO THE PEOPLE IN JETTIHUNDI VILLAGE

Wednesday, 13 May 2020

Dear Parents and Students,

Greetings to all of you! We are living in a strange historic time with the outbreak of Corona Virus pandemic that has caused suffering to humanity all over the world. The Corona Virus has become a major menace to life and has created a real economic crisis life situation. All business / professional/other activities (*other than essential ones*) have ceased to function as a preventative measure to fight against Covid-19. This has created huge financial crisis across the globe.

We consider it our responsibility to stand with the Government and those affected by the prevailing situation. St. Francis School on its part has tried to reach out to do some humanitarian work by providing ration kits to nearly 300 families in the neighbourhood of our Jettihundi Village. St. Francis Group of Institutions all over the country have been doing similar charitable works in collaboration with local governments.

What St. Francis School has done for the families in Jettihundi is like a drop of water in the ocean and it is nothing compared to the adversities they encounter in their day today life. We are happy that the Government is reaching out to people, supplying ration rice especially in rural areas. We are also facing lack of fund to reach out to people though we wanted to extend our helping hand to many needy people around us.

The voluntary contribution of Ms. Joyita Bhatt to Mission SFS of our School helped us to reach out to another fifty families in need. I am sure many of you will be doing similar charitable activities in your own localities during this period of crisis and adversities. The Lord bless us!

Bro. Sanil Tharayil
Principal
